LOGO FONT ORDER FORM

Complete a copy of this page for each logo

Given that logos can vary tremendously in complexity, we need to quote a price based on an evaluation of the time it will take to create your logo font. Please send us a copy of your logo(s) electronically by e-mail or by fax. Preferred electronic formats are vector images such as Corel Draw (.cdr with fonts converted to curves), Adobe Illustrator (.ai saved as PC version with fonts saved as outlines), Encapsulated Postscript (.eps), Windows Metafile (.wmf), Autocad (.dwg). Bitmapped images can be sent yet they may not reproduce as well. Typical formats include JPEG (.jpg), Compuserve Graphics Image (.gif), Windows Bitmap (.bmp or .pcx) or Tagged Image Format (.tif).

We will send you a quote via e-mail generally within 24 hours. If you would then like to proceed with the production of the logo, please complete the entire order form and send it to us either via fax (our machine is secure and can accept credit card numbers) or e-mail.

Your logo here. If faxing this document, indicate different colors with hand drawn arrows.

WHAT WOULD YOU LIKE TO NAME YOUR FONT?: _____
(name must be at least 4 characters, and can be up to 256 characters. Example: "Company X", "Our logo", etc.)

WHICH KEYBOARD CHARACTER WOULD YOU LIKE TO TYPE TO CREATE YOUR LOGO?

_____ Basic logo (default is "A")

_____ 2nd color if submitting a multi-color logo

_____ 3rd color if submitting a multi-color logo)

PLEASE SPECIFY YOUR SYSTEM:

[] PC TrueType Win 3.1/95/98/Me/2000/NT/XP/CE (Pocket PC)

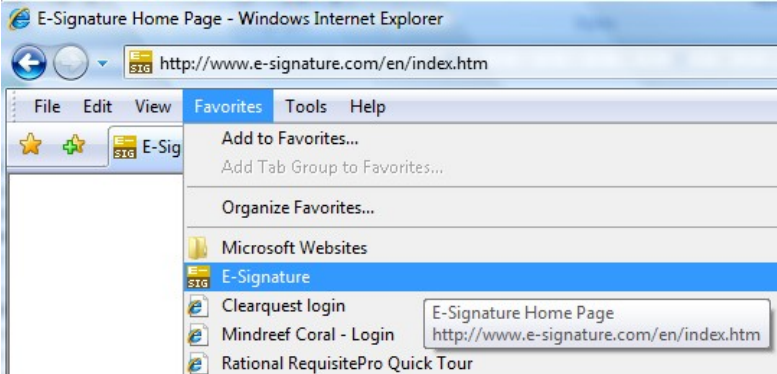

[] PC OS/2 or Linux

[] MAC (System 7 or higher)

<p>Symbol Encoding (yes or no) Allows you to use “insert symbol” feature in MS Word and Allows you to easily see the font in Office 2000/2003/2007 pull down menus. See http://www.e-signature.com/english/symbol_en.htm.</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No	FREE
<p>Embedding (choose one) Allows you to “attach” a font to a document. See http://www.e-signature.com/english/embedding_en.htm for more detailed information. Default is “Restricted embedding”.</p>	<input type="checkbox"/> Restricted Embedding <input type="checkbox"/> Print and Preview <input type="checkbox"/> Editable Embedding <input type="checkbox"/> Installable Embedding	FREE
<p>Logo icon Have a website or create your own file formats? Convert your logo to a 32x32 pixel .ico icon file. Save this as “favicon.ico” in your web site’s root directory and your icon will appear in the browser’s address line. To see an example, save the E-Signature site in your “favorites” and then open it. You will see our icon in the address line and next to our entry in the favourites list. Feature currently works only with MS Explorer. Helps you stand out among the other sites.</p> 	<input type="checkbox"/> Yes <input type="checkbox"/> No	US\$ 35.00 (included free if choosing corporate package)
<p>EOT file With version 4 and later web browsers, you can now embed a font into an html document to be seen by users who do not have your font installed. This is an excellent way to distribute graphics that are often repeated and displayed in different sizes. The file is programmed to only work from the web address you specify. Users can not copy or reproduce the graphic the way they can with .gif or .jpg images.</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No web site address (required):	US\$ 50.00 (included free if choosing corporate package)

Important note: Our fonts are designed for the operating system you specify and our obligation rests with providing a font that is recognized by and responds to the operating system. We are not responsible for the performance of a font in applications and we strongly recommend that you download our demo fonts first to ensure compatibility with your system for the intended use. We can provide test fonts if required.
